

PRODUCT RECALL NOTICE - CZ 455 SST RIFLES

Issued 9-20-2013

CZ-USA is announcing a voluntary safety recall of CZ 455 SST rifles to eliminate the possibility of a potentially dangerous condition. In certain rifles equipped with a single set trigger (the "SST") the firing pin can overcome the sear when the safety is disengaged, causing the rifle to fire without the trigger being pulled.

Any unintended discharge of a firearm has the potential to cause injury or death, and we ask that you **STOP USING YOUR RIFLE IMMEDIATELY UNTIL IT HAS BEEN REPAIRED BY CZ-USA.**

RECALLED PRODUCTS: This Recall Notice applies to all of the rifles listed below.

- CZ 455 VARMINT SST, 22 LR, 5 round magazine
- CZ 455 VARMINT SST, 17 HMR, 5 round magazine

DESCRIPTION OF THE HAZARD: CZ-USA has identified a condition where discharge may occur when the safety is disengaged, but the trigger is not depressed, in CZ 455 rifles equipped with a Single Set Trigger. Any unintended discharge of a firearm has the potential to cause injury, and we ask that you **stop using your rifle immediately until it has been repaired.**
